As soon as the news hit the market, the DOW has gone down considerably.

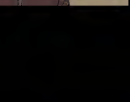

Bloomberg L.P. has reported that the slump is one of the biggest drops.

New China News agency is reporting that their head diplomat and other diplomats in N. Korea were killed due to an unknown explosion...

They are also reporting that the US stealth plane was shot down.

DEFCON 1 has been declared for the first time since 6-25 and soldiers are being placed throughout Seoul.

Soon, the Blue house will be making an announcement.

Hey, Gi-Bong! Wake up! Time to drink more!

Zzzzzzzzzzz

Let him sleep. He drank so fast and passed out a while ago.

Hey, stop browsing the web and join us.

Or go to a PC room...

Opps, there are news all over the web. They say "DEFCON 1". What's that?

A new ice cream?

Heh, you fool!

DEFCON is a hip hop singer!

DEFCON and USFK? What agency do they belong to?

It's saying that USFK has declared DEFCON 1.

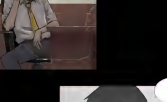

Woah! What?!

Hey?! What's wrong?!

Where have you been?

Anyway...

An order is an order so we are suppressing the media right now.

But you know it's not possible anymore in this era where there are other news sources from UK, USA, China, and Japan...

Anyway, I am going out there to shut the journalists up.

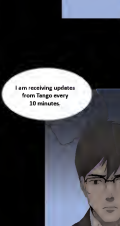

Is it raining heavy outside?

Ah... yes.

It looks like the storm has landed.

I got the report.

We lost contact with Ge-Seong Industry...

I am really sorry I call myself a president of a country

And yet failed to look after my own family in this crucial time

I am receiving updates from Tango every 10 minutes.

Don't worry. They say nothing violent has happened in Ge-Seong

Tango : Command post Tango is a United States military bunker complex in South Korea.

There was a battle involving helicopters in North Hwanghae Province about 3 hours ago.

4 Hour near DMZ zone.

Right now they seem to be busy fighting each other

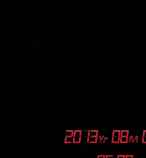

The CIA S. Korea chief ...

She talked to me as if there is going to be a war sooner or later

Who knows ...

But, if there is going to be a war, it should have happened by now

Mt. President. Faction leaders are here.

Go get some sleep while you can

Even if there is going to be a war, we will still need to stay sane.

Here is the info you requested.

I am really sorry to have you do this now.

No, sir. We should assist you especially at a time like this, sir!

The Korea and the US underground activists is the old name for CIA Korea division ...

They were a secretive group but were vital to the whole operations in Korean peninsula. They were treated like 007.

But the Assassination of the president Park Chung-hee was done by one of their members.

And then accusations started to come in ... Some even claimed that the US was behind the assassination...

\*The truth never came out. I am one of those who still believe the US was behind the assassination

And during the investigation of the assassination,

This Baek guy left Korea and went to USA. As soon as he got there, he was granted a green card and started to work in a company secretly backed by CIA.

So, he's been working for them for more than 30 years ...

Yes, which means he must be more than just good. You can't normally last that long as a spy

He's like a double spy, no, triple.... probably, more than that... Literally, he has become an unofficial top secret diplomat.

Why are you interested in this person ... ?

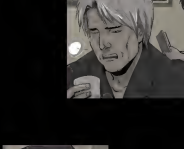

5 years ago

Ge-Seong industry

Hah !  
I win !  
I win again !

What the ...  
Go ...

Thanks for letting me win, Mr. Baek.

Actually I saw our great leader in my dream last night.

I guess he wants me to earn lots of foreign money today !

I thought I was going to lose the round ... And then boom ! The tides keep turning

Whatever ... Enjoy my donations

Mr. Baek... He runs Jami trade in Pyongyang.

But Jami trade is actually a CIA N. Korea division and Mr. Baek is the leader of it.

Mr. Baek seems to be visiting Ge-Seong frequently lately, so keep an eye on him...

Hey, a young man from the ministry of unification !

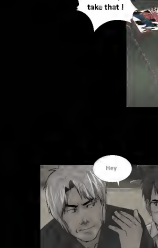

If you want to join us, join us already. Quit glancing at us.

Because you keep glancing behind my back, I am not getting good cards.

I am sorry ... but I am not really good at hwatu...

Are you kidding me here ?! I am an American and am playing it !

You can't back off now. You must join us !

Okay ! I am going for it !

Hahaha, take that !

Hey

Do you know why I like hwatu ?

It's this.

Red for North ... !

Blue for South ! Shodan !

Fight back if you will !

You see, in the Baek family, if you lose hwatu three times in row by three-go, you are removed from the family tree.

But if you can manage a shouden.

In hwatu, shouden is the best hand ! It turns tides of a game completely !

And that is what our people is about !

Westers always look good and impressive on surface but when it comes to down to real actions, they are cowards !

They should play hwatu ! Then they will know, hahahaha !

I am done...

Same... I have no other choice

Hahaha !  
Shodan !  
Ngari !

Let us drink in celebration for shodan !

Executive Park !  
Come with me now !

What's going on?

NHK, CCTV, and BBC are broadcasting emergency news.

They are saying it's an important announcement from Pyongyang.

Ah, there it begins !

Today's dawn

Those spineless white-skinned invaders from America has entered our air space without permission

And bombarded our capital !

The bombard has killed numerous high ranking officers including Chinese! !

In response to such a blatant provocation

We've decided to stand up and fight against this injustice.

Therefore, we are disregarding the 60 years of peace we've maintained and -

We announce declaration of war against S.Korea as well as United States of America !

I repeat:  
We announce declaration of war against S.Korea as well as United States of America !

Mr ... President !

What the hell is going on ?!

Declaration of war?!

No way ... No way !!!

However

Our greatest leader, Kim Jong-Il, has decided to grant you a reprieve despite of the fact that the likes of you deserve heavenly punishments.

He has shown the greatest compassion and his love for all Koreans. He has allowed you and the Americans a period of repentance for 7 days.

!

You've been given  
time to amend for  
your wrongdoings.

We fully expect your  
sincere compensation  
and repentance.

Heeding our wise leader,  
we shall control our rage  
for now.

And we shall not move  
forth for the 7 days.

However, if you fail to  
understand our leader's  
compassion and his love for  
peace,

Every one of us shall rise up  
and march toward where the  
unbelievers reside. We will raze  
their cities even if they are our kin.  
United States of America is  
no exception.

Our nation is heretic !  
Our nation is glorious !

Our nuclear missiles will  
burn United States of  
America !
